Whereas, Information has reached me from sources which I cannot disregard, that certain persons in violation of the neutrality laws of the United States, are making a third attempt to set on foot a military expedition within their territory against Nicaragua; a foreign State with which they are at peace; in order to raise money for equipping and maintaining this expedition; persons connected therewith, as I have reason to believe, have issued and sold bonds and other contracts, pledging the

therewith, as I have reason to believe, have issued and sold bonds and other contracts, pledging the public lands of Nicaragua and the transit route through its tetritory, as a security for their redemption and fulfillment.

The hostile design of this expedition is rendered manifest by the fact that these bonds and contracts can be of no possible value to their holders unless the present government of Nicaragua shall be over thrown by force. Besides the Envoy Extraordinary and Mmister Plenipotentiary of that Government in the United States, has issued a notice in pursoance of his instructions dated the 37th inst. ment in the United States, has issued a notice in pursuance of his instructions dated the 27th inst. forbidding the citizens or subjects of any nation to proceed to Nicaragua over the transit route from ocean to ocean, to enter its territory with ant a reg-niar passport, signed by the proper Minister or Consul-general of the republic, resident in the country from which they shall have departed. Such persons with this exception will be stopped and compelled to return by the same conveyance that took them to the country. From these cir-cumstances the inference is irresistible that persons engaged in this expedition will leave the United camataness the inference is irresistible that persons engaged in this expedition will leave the United States with hostile purposes against Nicaragua. They cannot, under the guise which they have assumed, that they are peaceful emigrants, conceal their real intentions, and especially when they know in advance that their landing will be resisted, and can only be accomplished by an overpowering force. This expedient was successfully resorted to previous to the last expedition, and the vessel in which those composing it were conveyed to Nicaragua obtained a clearance from the Collector of the port of Mobile, although after careful examination no arms or munitions of war were discovered, yet when they arrived in Nicaragua they were found to be armed and equipped, and immediately commenced hostilities.

nced hostilities The leaders of the former illegal expeditions of The leaders of the former illegal expeditions of the same character have openly expressed their in tention to renew hostilities against Nicaragua. One of them, who has already been expedied twice from Nicaragua, has invited, through the public newspapers, American citizens to emigrate to that Republic, and has designated Mobile as the place of rendezvous and departure, and San Juan del Norte as the port to which they are bound. This person, who had renounced his allegiance to the United States, and claims to be President of Nicaragua, has given notice to the Collector of the port of Mobile that two or three hundred of these emigrants will be prepared to embark from that port about the middle of November.

For these and other good reasons, and for the purpose of saving American citizens who may have
